Has replaced GUDERIAN (q.v.) as Panzer Chief; in spite of being a Panzer specialist, became a fortification expert when Hitler drew his tank forces far behind the lines during Russian winter campaign; laid greater part of East Wall: block houses, bunkers, mine fields, booby traps, all of which made the war around Rzhev, Vyazma and Kharkov so hideous during the last winter months of 1941-42; proclaimed it as "absolutely impassable", but must have realized by March that Russians had discovered methods which gave this the lie.
